Why BENAKA MEDITECH?

Our company offer a set of value added services that enable our clients to take optimum advantage of our products and services to suit their special requirements.

Our Clients

Nurse Call Systems

Benaka is one of the leading supplier of wide range of electronic nurse-call systems. These systems are modular and can be configured for establishments from very small nursing homes to large institutional hospitals. Extremely sturdy, the oldest installed are fully functional even after more than 20 years of continuous use. Based on a simple Red-Yellow-Green signaling principle, present models incorporate a host of additional features including emergency alarm alerts, instrument alarm relays, nurse presence registration, patient-nurse intercom, hospital wide code-blue alarms and call response monitoring. They comprehensively address every aspect of nurse-call and require no special training to understand or operate.

Oxygen Generators

Our oxygen generators are supplied turnkey ready to run, which allows a very easy installation on site. Our engineering and after sales services are always available to help you at each stage of your project, in any circumstances, and can operate worldwide for startup, commissioning, inspection or service purpose. Genuine spare parts availability is guaranteed for more than 20 years to cover the long lifespan of our systems. Our strength remains on the quality and reliability of our products, our commitment to provide the best after sales service for a complete client satisfaction, and our flexibility to meet exactly our clients' demands, whatever they are.

Hospital Cubicle Track System

Combining mechanical strength and flexibility with the smoothest performance, our hospital cubicle track systems are used in major hospitals all over India and are one of the safest and strongest tracks available.

Hospital Cubicle Curtains

Offering lasting value to its users, our cubicle curtains come with stain retardant, fire retardant and antimicrobial qualities, are economically versatile and very attractive. Moreover, they are available in different designs and more than 10 colours.
